

Step 1

Always start with the middle so it is easier to handle the composition.

Step 2

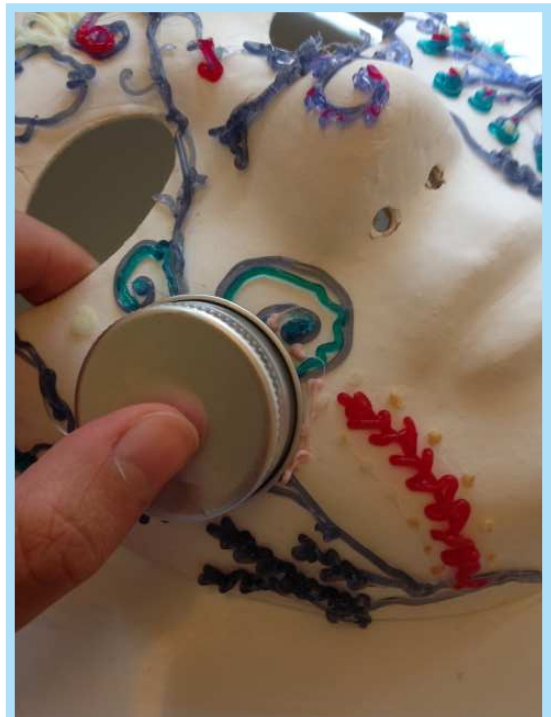

Develop the different elements according to the base middle line.

Step 3

Fill in the colors from outer to inner.

Step 4

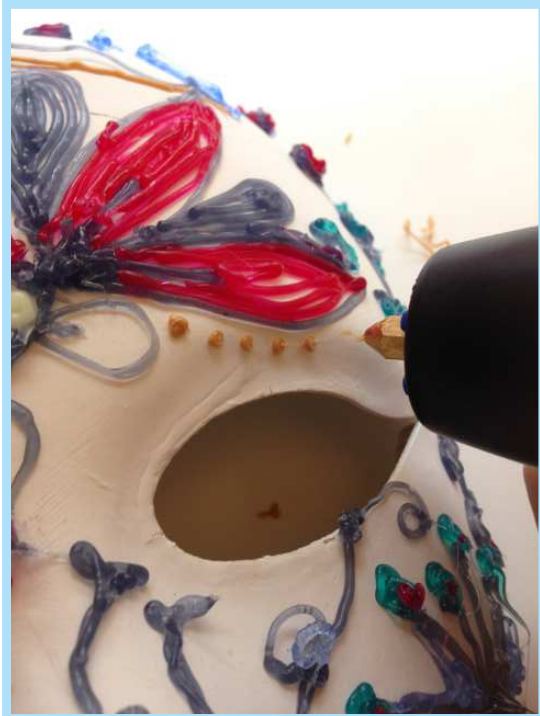

Create the circle red cheek by following the cap shape.

Fluorescent masquerade mask

Step 5

Last for 3 seconds by dipping the 3D printing pen to create spots pattern.

Step 6

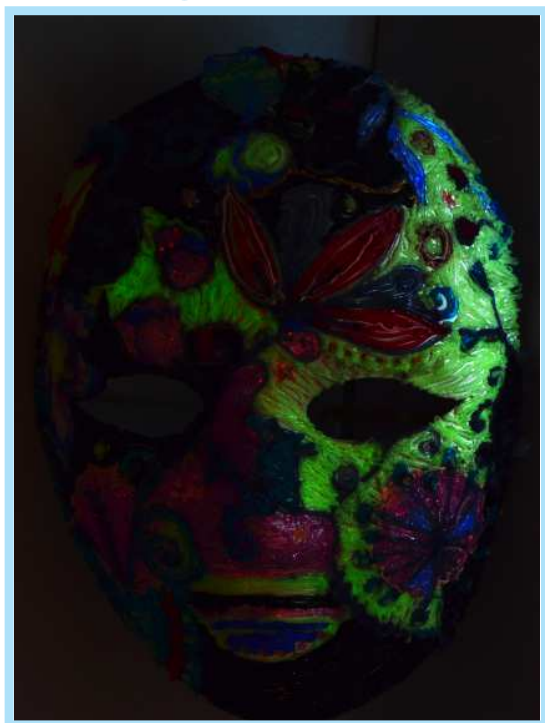

Fill in the chin with the colors that used earlier so the mask looks coherent.

Final (daytime)

Create the circle red cheek by following the cap shape.

Final (night-time)

Create the circle red cheek by following the cap shape.

Fluorescent masquerade mask
